

Dear Possibility Managers and Friends of Possibility Management.
It is time. With great pleasure we invite you to the

Congress 2012

“I am a bridge to next culture”

Your children, friends, colleagues and interested pioneers are very welcome, too.

Purpose

The congress provides a variety of spaces in which you and your future are in the foreground. We are all faced with the same questions:

- How can I contribute with my individual life-task so that a culture emerges that works?
- In what way can I take responsibility for co-creating a new, sustainable lifestyle?
- How can I be a bridge to next culture?

The invitation of this congress is not to look for answers. The invitation is to become answers.

How?

Talking in small groups, discussing, learning, trying out, making mistakes, encouraging each other to try again, being inspired, getting clarity about the personal next

steps, making new friends, renewing old friendships, engaging projects and work that are important to you, celebrating and enjoying the special atmosphere of community in the context of Possibility Management.

For the children there will be an exciting parallel program.
